Lovely original mix, & smooth Tumble-rmx! ;) Spacey and cosmic, classy tracks all of them, all mixes worthy of support. 9/10 from me.

Alan Brown

Sounds like eighties electro-world music but it's a future balearic classic. PhilGood (Fréquence Jazz / Jazz Radio / La Marquise - Lyon, France)

aaron ross

love it ! bangana mix

orig: deep, down, sexy & funky acid line, slooow, but am into this one. great. if you can play this kind of music in a club the primetime,, it's a good one ,)

ralph boege/ para-dise.biz

bangana dub: will work better for the djs, but the orig is the shit.

wagon cookin

TOMOKI TAMURA

cant wait rock the dance floor with this.

each track has it's own purpose...the original and Alf Tumble Remix combine minimalism and enough funk to move some feet and snap some necks...time for a mix tape..

justin chapman....

A really great strong package that in a way is almost nostalgis for me in the sense that there are some bits of early F.comm/Ludvic Navarre and many other schools.A good and tasteful balance of influences very well constructed and produced.

Mark O Sullivan

very nice release again I like all the versions, hard to say which one I like best. All sounds great, Original might be track what I play in my cosmic city deep house night...

liltony

The Bangana Rmx brings this already genius track the energy it needs for me to bang it prime time. The remote mix is for the funky times. Very creative....

Hello Guys, Many thanks for the new music. I am always excited to hear what you have next and one again you have come through. I am feeling the Original Mix as well as Alf's Rmxs....the Bangana Rmx is a bit to dark for my tastes but the other 2 definitely work very nicely - cool drums & sounds and a very different sounding production, well done!

hey bwoiz, i like all mixes. will play all 3. this is a very good package, indeed!! oh, & btw: very nice promo site u have. respect! cheers & thanks, y

I think I am feeling the Alf Tumble rmx the most.

Original is a bit too slow for me. Bangana mix is cool, not sure if I am feeling the techy synth stuff in the middle. Might grow on me. Overall, it's lacking a bit of energy for my taste, but thanks!

All mixes have a very nice groove. My favourite is the Bangana mix. Driving and slightly twisted. nice, will support.

very nice one! ill play the original and bangana remix . Another winner for sure! I like the ORIGINAL and the BANGANA RMX...will rock them BIG TIME!
my fave is the alf tumble mix

Jesse Mann

Richard Earnshaw

love the original here, the live feel of the drums is great and and distant vocals make it sound lovely and lo-fi. not super into the remixes though. i will be playing the original for sure. thanks!

Nice job! All three mixes really compete for my attention. I'm going to have a tough time deciding which of these to drop as all three are EXCELLENT!

Barry Weaver

Thank you and keep 'em coming!

original mix has nice percussion and classic minimal feel, something good out of Austria! bangana mix full blooded and twisted, feeling it!

patrick forgeori

Nice slices of minimal. It's the Alif mix that's done the biz for me; likin' them beats and illin' on the subdued vibes.

Velanche

Love the Bangana Remix. This will work very well in Grooveland Parties.

Lovely mellow vibes. I llove how Africa is back in dance music - reminds me a bit of the Frikywa comps FCom used to do and I feel this would work nicely amongst some Hemrik Schwarz stuff. My faves are original and Bangana mix, the latter has a drop that comes from outta nowhere and really ramps it up!

Simbad

Thnx guyz, interestin' noneless, da Bangana mix is pretty sick, wicked techno 4 da right systems :-)) will dfntly drop that 1 !!!

Like the Alf Tumble rmx, its my favourite . dont like that much the rest, to techy for me. thanks very much.

this is definately more my speed! the original & Alf's rmx are great. big ups! x/m

Loving The Original Mix ! Great "Minimal-Ethno-Acid-House" !! The Bangana remix starts off well but gets too twisted afterwards to my taste, and the Alf Tumble mix doesn't bring much to the original. Nice release however :-) Thanks !

Once again you guys have come up with the goods! I like the original the most because it contains the right balance of elements but the jobs that have been done on the two remixes are also superb - they might just become my favourites soon. Will be reviewing this release without any doubt!!! Thanks guys
