

**Ralph Böge**

nice package, but i like to shuffle ! i feel track 3. I appreciate all three tunes, but Transcendental would be the tune that I'd play most. Nice percussion, warm and pretty melodies, and elevating tension. If you're open to remixes keep me in mind ;)

**Marc de Breyne (aka Iron Horse)**

Sounding well! Deeper feedbacked when checked properly in a club

Love Morphar...with the vibes and beats just the house I play right now. The Shuttle is mega dark, for the come down, slow cosmic darkness for the moody boys. Great release, high sound quality and a great trip! 8/10

Solid Release! The Transcendental and Morphar tracks is just the style i like to play early on or in my more bar-lounge venues. It's beautiful yet not too obvious. The Shuttle is a dark song perfect on the underground clubs. Will play these for shure! pretty slick!! liking your work.

Deep deep deepness! Some real moody tracks great for those epic DJ journeys.

Feelin' 'The Shuttle' great track really kicks when it gets going, can't wait to hear it on a club system! nice and deep ep, a little bit different from the usual Bangana sound but i guess it is just a logical progression

Freakishly deep stuff again. Really love the moody vibe. Will definitely play some of the Bangana tracks at a couple of festivals again this summer! Awesome stuff, thank you!

my cup. cheers

Love the old-school-pianos and the ever-building  
arrangement of "Morphar"! And if the crowd needs  
a wake-up-call, I will play "The Shuttle". That  
track's got BALLS.

Transcendental is deep. I like it the most. Keep  
going.

Really love the dark and moody 'The Shuttle'. Very  
haunting and nihilist. Proper moody mania for the  
masses. 9/10.

A little too deep for me.

My favourite is Transcendental. Nice bass and  
beats with good way to grow the track.
