

Florian Kruse

[Hamburg, Germany]

<http://www.myspace.com/floriankruse>

Florian Kruse's sound can be best described as **modern electronica**, as he fuses downtempo dub-influenced grooves with more German minimal-sounding deep grooves and tech-house, with clear references to the likes of **Chateau Flight, Âme, Stefan Goldmann and Jazzanova**, to name but a few.

Florian is currently producing and remixing for acts such as **Rivera Rotation, Svenson & King, Samantha James** and Canadian folk singer **Tamara Nile**, and has tracks and remixes coming out on **Slip'N'Slide, Om Records, Lounge Records** and Sweden's **Heya HiFi**, run by **SUMO**. He also has several new hot productions in the pipeline together with studio partner **Nils Nürnberg & of course brother Vincenzo**.

Florian is an active DJ on the Hamburg underground scene and with his old friend **Ciro Vesuviano**, they organise the **Moccabeat** parties at **Lounge** in Hamburg, and from that another band idea is born, and named "**Moccabeat Connection**". Aside from this and being involved with several other bands, he is also one of the producers for house act "**Rivera Rotation**". With numerous releases and remixes they should already be familiar with many house-heads out there, their amazing remix of **Q-Burns Abstract Message & Lisa Shaw's 'This Time'** is a house classic, and was re-released in February 2007. The darker more minimal underground track "**All Day**" by **Rivera Rotation**, is scheduled for release on **Slip'N'Slide** summer 2007, with **Florian Kruse, Vincenzo and Silicone Soul Remixes**, as played by **X-Press 2, Darren Emerson & Stuart Patterson** amongst others. His amazing collaboration with **Nils Nürnberg & Tamara Nile - Sunrises**, is also forthcoming on **Slip'N'Slide** with **Lifelike Remixes**, which has already had much interest from several key European A&Rs.

Raised in **Schleswig Holstein, North Germany**, he started buying records with preference for electronic music and music of the 70's, influenced by his brother **Vincenzo**, a successful DJ/Producer in his own right. Florian moved to Hamburg at 19, and found work as DJ promoter for well known PR & Club Promotions company "**Public Propaganda**" as well as working for super-cool distribution company, **Wordandsound**. He now works for the highly respected German branch of "**School of Audio Engineering**", or **SAE**, as audio engineer and teacher, guiding tomorrow's stars of German electronica towards a bright future in music production.

Career Highlights -2007

Winner of the "Burn For Music Newcomer Contest" in the category House/Trance/Ambient with the band "**Gaudy Project**" in May 2003.

Special FX produced for "Turin Olympic Games 2006", the official game for Sony Playstation, X-Box and PC release in August 2005.
